

Languages Curriculum Framework

Intent:

Learning a foreign language is a liberation from insularity and provides an opening to other cultures. At the Futura Learning Partnership, we aim to foster pupils' curiosity and deepen their understanding of the world. We strongly believe that languages are a skill for life, and something that pupils should enjoy and find rewarding. Through learning foreign language, students also develop literacy and oracy in their own language as well as resilience and problem-solving skills.

Language learning should provide the foundation for learning further languages. We hope to expand students' cultural knowledge whilst developing their language skills.

Through language learning, pupils gain a sound understanding of the structure of their **own** language, leading to effective communication in the foreign language. Students of all abilities can benefit from learning a foreign language, supporting and enhancing their literacy learning across the curriculum.

The Languages curriculum caters for students with varied previous language learning. It enables students to build upon prior knowledge or language learning skills.

Students are well-prepared at the end of each key stage to tackle the next steps in language learning but equally, should they choose not to continue their formal language learning, they are equipped with the skills and knowledge to use in the workplace or for leisure or to further their learning.

Inclusion: Our curriculum is ambitious for all and strives to address inclusion and disadvantage in its intent and implementation

Aims: Underpinning the intent are key **substantive concepts**

Listening (comprehension)	<p>To be able to listen attentively and respond to familiar spoken words and phrases.</p> <p>To identify key points in a new context and understand simple facts and opinions, with increasing complexity, in spoken sources.</p>
Speaking (production)	<p>To build up communication skills year on year until students are able to use spoken language, with increasingly accurate pronunciation and intonation</p> <p>To initiate and sustain conversations on familiar topics and to describe incidents based on their own experiences.</p> <p>To be able to read aloud from a given text with good expression.</p> <p>To understand and be able to use transactional language.</p> <p>To give a description e.g of a town, geographical features in a country.</p> <p>To seek clarification of meaning.</p>
Reading (comprehension)	<p>To read in groups, simple playscripts, poems etc.</p> <p>To read and understand the main points and key details from a short written passage.</p> <p>To read and understand increasingly detailed texts in terms of vocabulary and structure and length.</p>
Writing (production) and Grammar	<p>To write sentences and construct texts first by using a model and then from memory using knowledge of words, text and structure.</p> <p>To use adjectives to add interest and detail to a description.</p> <p>To understand the basic grammar appropriate to the language being studied; verbs – begin to use the past/future tense, adverbs.</p> <p>To be able to identify and manipulate tenses from a selection of sentences written in the present, past and future tense.</p>

Independence - Using reference materials	To be able to use reference materials (eg dictionaries) in order to check, edit, improve and manipulate vocabulary.
Cultural Awareness and Understanding	To promote mutual respect for and tolerance of different cultures and those speaking other languages. To have an appreciation of the historical context of linguistic spread.

Disciplinary concepts:

It becomes obvious that Languages is distinct from other subjects because it is not a discipline, there is nothing but 'substantive knowledge' to study and learn.
