Operations manager: Claire Mansri

Dear Parent/Carer,

We are delighted to introduce Zest Catering to you as the Wellsway Multi Academy Trust's in-house caterer, providing food at Saltford C of E Primary School from September 2018.

With decades of catering experience in the education sector, the management team at Zest prides itself on a 'Fresh, Healthy and Tasty' ethos.

Our produce is sourced locally and the use of seasonal, regional foods along with traceability and British Farm Assurances is extremely important to us. We also endeavour to use Fair trade and Organic produce where possible and constantly strive to improve our healthy eating offering to children by looking at areas such as salt & sugar reduction in our recipes, our impact on the environment by using compostable disposables and reducing single use plastics.

Our menus are devised following the School Food Plan standards and change three times per year in line with the seasons, offering the best tasting experience for your child/ren. We value input into our menus and welcome feedback from children, school staff and parents to offer a truly tasty menu. Please be reassured there will be no price increase to the current meal cost.

We have a robust food safety management system in place with all our school kitchens achieving 5 stars for food hygiene and are able to support any dietary requirements needed.

We are excited and are looking forward to a working partnership with Saltford C of E Primary School and feeding your child/ren healthy, tasty food they (and you!) want to eat.

Yours sincerely

Mrs Claire Mansri

Catering Operations Manager
