

We will keep up our excellent **overall** behaviour and attitudes using the new Behaviour and Anti-Bullying systems.

We will make sure that all children have the opportunities to achieve the **outcomes** they deserve by:

- Developing teachers' skills and use of assessment resources.
- Making sure all children have a good understanding and are challenged to think more deeply.
- Making sure that our curriculum allows children to make clear progress in all subjects.

Our **teachers, leaders and governors** will keep working to improve the school by looking at what we do well and how we can make things even better.

Saltford
CofE Primary School

School Improvement Plan for Children 2019-2020

OUR COMMITMENTS

- Our children will make excellent progress in all that they do and will leave us achieving in line with or exceeding national expectations.
- We will develop a team of brilliant practitioners who are skilled at delivering an inspirational, world-class curriculum which is personalised to meet the needs of all our children.
- Our community is a partner in all that we do and we work together to ensure a shared sense of social responsibility where equality is promoted, diversity is valued and discrimination is challenged.

We will also keep up our work on anti-bullying and online safety, as well as special weeks celebrating 'Our World Matters' and 'Languages Matter'.

We will make sure all children are attending school whenever they can. We will make good use of different areas of our school, including our 'Bug Room' to help children feel **safe and happy** when they need it.

We will make sure all children are given the opportunity to achieve as well as they can through our **teaching and learning**.

This year we are really focussing on:

- Reading to Achieve.
- Writing and spelling.
- Maths problem-solving and times tables

In our **Early Years Foundation Stage**, all children will be given opportunities to make good progress across all the areas of learning and the adults that work with them will continue to think about what works well and how we can improve.
