Dear Parents

Reading is a fundamental skill that underpins all future learning your child undertakes. Children being able to read fluently, with clear understanding, is paramount to their educational development.

You are invited to a presentation about how you can develop your child’s reading ability, whether they are in Reception through to Y6, a reluctant or competent reader, and support them at home to master and develop this vital skill.

This meeting will run straight after both access mornings 9.30 - 10 am in The Badger Room and is open to all parents.

If you would like to attend please reply via School Gateway, stating any specific questions you would like answered, if any, in the comments section.

Yours sincerely

Miss Davis
